PROGRAM SUMMARY

The **Ignite** Program is an online group coaching program designed to support mid-career professional women to accelerate their professional progress by equipping them with the foundational tools required to step up to the next level of leadership, impact and recognition.

The program fast-tracks growth by providing targeted support and guidance in key areas, fundamental to delivering exceptional results as a leader.

As a direct benefit of the program, women will have the privilege of sharing their transformational experience with other exceptional women from a diverse range of industries, who share their ambition, commitment and drive.

THE GOALS OF THE PROGRAM ARE:

1. Increase leadership capability and accelerate professional growth of high potential female leaders.

2. Support women to have a greater impact and influence within the business, recognising the importance of diversity of thought to support a dynamic workplace culture and outstanding business outcomes.

3. Build sustainable work habits that ensure focused, bold action aligned with business goals.

WHAT WE'LL COVER

Success at this level of leadership takes more than good luck and hard work. In this program we'll cover everything women need to build their capability and confidence to take their next step as a professional leader.

From dropping old habits that no longer serve, tapping into unique strengths, becoming laser focused on the activities that matter most, to developing the all-important mindset for success.

The training modules will include:

Module 1: What matters most
The difference between a good career and a great career is where leaders focus their time, energy and resources. In this session we create a solid plan to ensure each leader is working on activities that will have the biggest impact within their role, for their team and the organisation.

Module 2: Your career pathway
We are all responsible for driving our own career forward. In this session we identify unique skills, talents and strengths of each person, and we create a clear career pathway in alignment with what each woman does best, and the value they offer the organisation.

Module 3: Lead your way
Creating a compelling and authentic leadership style stems from leading in a way that is congruent with who we are. In this class we identify each person's unique leadership style – one that feels right to the individual AND supports them to achieve the outcomes they seek.

Module 4: The inner game
While learning new skills, gaining more experience and expanding technical knowledge is important to create growth as a leader, the thing that makes the biggest difference is working on our mindset. In this class we look at how to level up our inner game to maximise our outer performance and results.

Module 5: The value of visibility
Getting comfortable being more visible is part of being a leader. In this session we focus on some simple strategies to raise a leader's visibility, create a strong professional reputation and build strategic relationships across the business.

Module 6: Opportunity is knocking
This wrap up session is all about consolidating the new habits gained throughout the program to build momentum for long term sustainable growth.

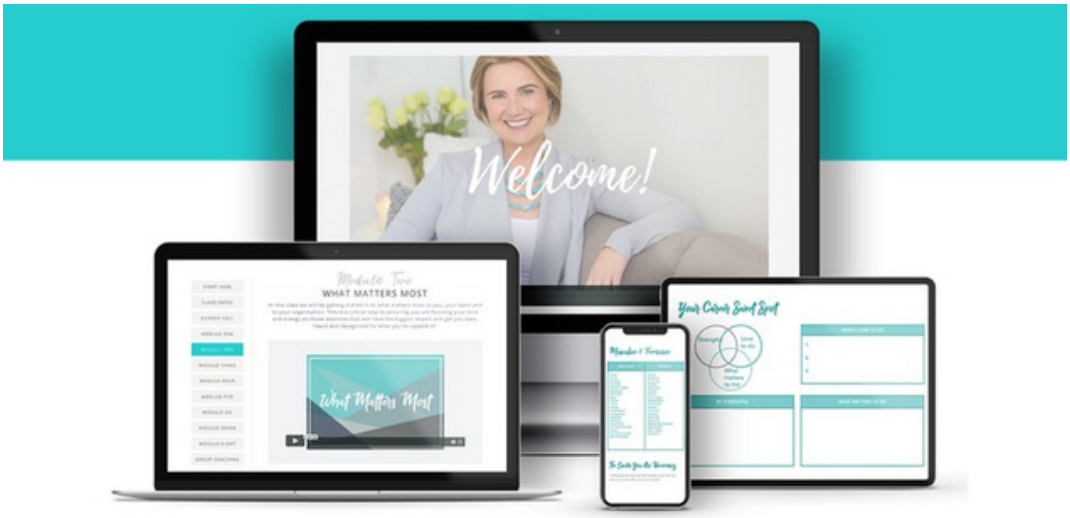
PLUS INSTANT ACCESS TO SOME VALUABLE EXTRAS:

> Program Introduction
This bonus module provides an overview of what we will cover over the eight weeks, how to get the most from the program and a process to clarify your professional and personal goals.

> Bonus 1: Create space to lead
Leaders are employed to think strategically, solve the big issues and develop their team... but if their days are filled to the brim, it's hard to do any of these things. This class is all about clearing space to allow for true leadership.

> Bonus 2: Peak performance
Hard work may have been the key to career progress in the past, but if we don't change our ways, burnout may be just around the corner. This session is all about creating rituals and routines that support high levels of productivity and effectiveness. We explore how to cultivate a healthy mind, body and spirit to maximise efficiency, effectiveness and quality of outcomes.

WHAT'S INCLUDED



The program will be delivered over 8 weeks and include:

- Six interactive 75 minute lessons – with practical worksheets to support learning.
- Instant access to 2 high value bonus classes and a little pre-work that will set you up for some quick wins right away.
- Two 75 minute group coaching calls – to facilitate deeper understanding and overcome challenges.
- A private online group forum – to enhance connection, collaboration and shared learning.

WHAT OTHERS ARE SAYING ABOUT IGNITE

"The Ignite program was a truly transformational experience. I entered the program knowing that something needed to change but not knowing exactly what that 'thing' was. Over the duration of the program, I discovered that what needed to change was what I am known for – an exceptional operational leader rather than purely a hard working team member."

"I cannot begin to tell you how different and well equipped I now feel to deal with the day to day challenges of my role. The Ignite Program provided me with the skills and tools to improve the way I work. The content and delivery of this program is perfect for time poor women wanting immediate and lasting results."

"The Ignite Program was fantastic and such an eye opener. It was practical and logical and delivered with compassion, making it easy to embrace. Since the course, I have gotten a promotion-in-role and led a high-profile project."

ABOUT JANE

Jane Benston is an accomplished women's leadership coach and trainer, with more than 10 years supporting high potential mid-careeer professional women to break though to the next level of leadership, impact and recognition.

She works with women who are ready to STEP UP, GO DEEP and GET REAL about their success in a way that's authentic, intuitive and just right for them.

Jane brings an energetic, warm and modern approach to mentoring, focused on creating transformational change and sustainable outcomes for both the individual and the organisations in which they work.
